

Sundaram-Clayton Limited

ENVIRONMENT, HEALTH AND SAFETY (EHS) POLICY

Sundaram Clayton Limited is engaged in the manufacture of sustainable aluminium die-castings and machined components for the automotive industry.

We are committed to

- Develop, manufacture and supply products in a sustainable way.
- Provide a safe work environment to employees & visitors and protect them from potential safety and health risks.

We will ensure the above by

- Integrating sustainability considerations into all business processes.
- Setting clear cut targets and implementing projects for conservation of resources.
- Integrating EHS standards in all our activities at design stage itself by instituting risk assessment methodologies.
- Reviewing and continually improving the performance of Environment, Health and Safety management systems.
- Compliance with all the regulatory and other requirements.
- Creating awareness and providing necessary training on Environment, Health & Safety for all stakeholders.
- Consultation and participation of employees in EHS system implementation.

We will communicate this policy to all persons working for and on behalf of the organisation and make it available to the public.
